

The Service may contract with the Tribes for resource personnel or services as needed. The Service will conduct the planning process providing the Tribes, as well as other governments, agencies, organizations, and the public with an opportunity to participate in the scoping and public comment process.

The Service is requesting input for concerns, ideas, and suggestions for the future management of the National Bison Range Complex. Anyone interested in providing input is invited to respond to the following three questions.

(1) What makes the National Bison Range Complex (or any specific unit) special or unique for you?

(2) What problems or issues do you want to see addressed in the Comprehensive Conservation Plan?

(3) What improvements would you recommend for the National Bison Range Complex (or any specific unit)?

The Service has provided the above questions for your optional use. There is no requirement to provide information to the Service. The Planning Team developed these questions to facilitate finding out more information about individual issues and ideas concerning the National Bison Range Complex. Comments received by the Planning Team will be used as part of the planning process, individual comments will not be reference in our reports or directly responded to.

There will also be an opportunity to provide input at open houses scheduled for late January 1998 to scope issues and concerns (schedule can be obtained from the National Bison Range at above address). All information provided voluntarily by mail, phone, or at public meetings becomes part of the official public record (e.g., names, addresses, letters of comment, input recorded during meetings). If requested under the Freedom of Information Act by a private citizen or organization, the Service may provide copies of such information.

The environmental review of this project will be conducted in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), NEPA Regulations (40 CFR 1500–1508), other appropriate Federal laws and regulations, Executive Order 12996, the National Wildlife Refuge System Improvement Act of 1997, and Service policies and procedures for compliance with those regulations.

We estimate that the draft environmental document will be available for review in June 1999.
